

Social Virality Report

PPC Guru · Performance-marketing / lead-gen agency · GTA · Prepared June 2026

We searched your niche the way a buyer's algorithm does, scored every reel against its **own** account's average to separate real format-wins from luck, decoded the winners on three layers (what viewers **see, hear and read**), then rebuilt those proven formats around your **real** client results — which competitors can't copy. This edition ships a full **two-column shooting script for all ten reels**, plus the research behind them.

1 · How we did the research

Four stages, each measured — not guessed:

- 1. Your baseline.** Scraped your last 20 reels to learn your own average and what already works.
- 2. Niche discovery.** Searched the niche by keyword/hashtag (not competitor names) — **36 candidate reels** surfaced.
- 3. Outlier math.** Deep-scraped **5 accounts (149 reels)** and scored every reel as $\text{*plays} \div \text{that account's own median*}$ — so a format win is separated from a big-account win.
- 4. Three-layer decode.** Decoded the top winners on visual, audio and on-screen-text channels.

Niche reels surfaced	36	
Reels measured for averages		149 (5 accounts)
Reels fully decoded (3-layer)	3 — thin; see note	
Priority format-wins (20x+)	2	

Honest scope note. Only 3 reels were fully decoded (the method targets 15+), and all three were India-based agency-growth creators — a thin, geo-skewed sample. The formats still transplant (that's what the outlier math proves), but a follow-up run should decode 15+ reels and deliberately include Canadian / Western local-service creators. The full list of the 36 candidates and 5 scraped accounts was not saved in the first run — a known gap we can close with a re-run.

2 · How we decoded each winner (the 3 layers)

Channel — what it captures	Tool used	What it returned
VISUAL — first frame, shots, cut pace, mood	Higgsfield video_analysis	the visual hook in second 1 + shot rhythm
AUDIO — the spoken script	Higgsfield (Whisper trial had expired)	verbatim transcript + translation (Hinglish)

3 · The winners we decoded — and where they're from

Account	Origin	What it is	Why it's relevant to you
akshatsadhu	India	agency-growth creator	#1 approved adjacent niche for format transplant
therudransh.sharma	India (Jaipur)	lead-gen, Hinglish	directly serves your S-Asian diaspora segment

Why foreign accounts at all? The outlier score rewards content that beat its *own* account's average — that's a signal about the **format**, which crosses borders. We then rebuild the format with **your** GTA proof, in English (plus an optional Hinglish cut for diaspora owners). The Hinglish winner isn't noise — it maps onto a segment your brief explicitly targets.

4 · Your account today

Your baseline (median) reel does **~4,355 plays** (last 20 reels — directional). The pattern is loud:

Your reel	Plays	vs avg	What it was
"The Halo Effect" (brand psychology)	39,470	9.1× — best	broad marketing-psychology education
"Likes don't equal leads" (audit)	10,914	2.5×	nurture + DM CTA
Contractor Google Ads pitch	~708	0.16×	narrow service pitch

Read: your reach engine is broad education + trends, not service pitches. Lead with psychology / AI / "how marketing actually works," then convert with proof. Pitch-first reels cap your reach.

5 · The three winning formats (and the gap)

6s POV listicle (akshatsadhu)		27.6×
Split-screen scoreboard (mycaptain)		20.5×
Proof + comment-bait (rudransh)		8.4× · 6,225 comments

A · 6-second POV listicle (27.6×): over-the-shoulder 'real operator' b-roll, 5 fast text steps, trending audio, comment-bait CTA — ultra-short so it loops. **B · Split-screen scoreboard (20.5×):** a number gap (1833 vs 98) as an instant visual question; hook is a *question*, not a claim. **C · Proof + comment-bait (8.4×, 6,225 comments):** opens on a real lead spreadsheet; a triple CTA manufactures comments. Hinglish.

THE GAP — your unfair advantage. Nobody in the local-agency lane runs these proven formats with real, specific client outcomes (the creators winning them use generic/invented numbers). You have un-fakeable proof — a contractor taken from \$1,000/mo to \$500K/mo, physio clinics booked from Google — plus two unused angles: GTA local pride and Hinglish for diaspora owners.

6 · Your 30-day plan (40 / 40 / 20)

Ten reels at 2-3/week, balanced for **Reach** / **Nurture** / **Convert** so the calendar grows an audience **and** books calls:

#	Date	Type	Format	Hook concept
1	Mon Jun 16	REACH	Split-screen scoreboard	"Same \$1,000 — 0 jobs vs 37 leads"
2	Thu Jun 19	NURTURE	6s POV listicle	"POV: your ads don't convert. Fix 3 things."
3	Sat Jun 21	CONVERT	Proof + comment-bait	"42 patients booked from Google"
4	Mon Jun 23	REACH	AI-trend talking-head	"Customers ask ChatGPT before Google now"
5	Thu Jun 26	NURTURE	6s listicle	"3 numbers your reels already tell you"
6	Sat Jun 28	REACH	Split-screen scoreboard	"Boosting vs a funnel — the lead gap"
7	Tue Jul 1	NURTURE	Hinglish proof talking-head	"10 din mein leads — yeh setup"
8	Thu Jul 3	CONVERT	Comment-bait + dashboard	"Contractor: \$1k → \$500K/mo"
9	Sat Jul 5	REACH	"Real operator" POV	"Running ads for 12 businesses at 2am"
10	Tue Jul 8	NURTURE	6s text-listicle	"Show up in ChatGPT — 3 steps"

Split: 4 Reach / 4 Nurture / 2 Convert = exactly 40/40/20. Cadence never exceeds 3/week.

7 · The scripts — all ten reels (two-column shooting format)

Read each like a film script: the **left column is what the viewer HEARS** (the spoken voiceover, by timestamp); the **right column is what they SEE and READ** (camera/visual + the on-screen text overlay). Under each table: the hook, the call-to-action, and why it should travel.

Reel 1 — "Same \$1,000"

REACH 35s · original voiceover

TIME	AUDIO — what they HEAR	VISUAL & TEXT — what they SEE & READ
0-2s	"Same thousand-dollar budget. One agency got zero booked jobs — we got thirty-seven leads. Here's the difference."	Hard split screen. LEFT (red): a boosted IG post. RIGHT (green): a Google Ads dashboard. TEXT: "Same \$1,000. 37 leads vs 0."
2-8s	"Most contractors think more leads means more budget. It doesn't."	Hold the split; a finger taps the boosted (left) side. TEXT: "BOOSTED — 0 jobs" / "STRUCTURED — 37 leads"
8-20s	"This contractor was stuck at a grand a month. We didn't touch the spend — we fixed the structure: campaign build, high-intent keywords, one conversion landing page."	Screen-recording: keyword list → the landing page being built.
20-30s	"Month one: 37 qualified leads on the same budget. Month two: three deals — a hundred and fifty grand."	Animated stamps: "Mo1: 37 leads" → "Mo2: \$150K".
30-35s	"If your ads bring clicks but no jobs, comment STRUCTURE and I'll send the 3-part build."	Founder to camera / end card. TEXT: "Comment STRUCTURE"

HOOK: the split-screen number gap (0 vs 37) — an instant visual question in second one.

CALL TO ACTION: Comment STRUCTURE → DM the 3-part build.

WHY IT'LL GO VIRAL: transplants the 20.5× 'scoreboard' format onto a real contractor result no competitor can claim.

Reel 2 — "POV: your ads don't convert"

NURTURE 8s · trending audio (silent format)

TIME	AUDIO — what they HEAR	VISUAL & TEXT — what they SEE & READ
0-1s	— no voiceover — (trending audio)	Over-the-shoulder at a real desk: two monitors with a Google Ads dashboard, coffee, dim '2am operator' light. TEXT: "POV: your ads don't convert. Fix this."
1-3s	— no voiceover — (trending audio)	Text card 1: "1. Landing page asks for everything → ask for ONE thing."
3-5s	— no voiceover — (trending audio)	Text card 2: "2. Offer is 'contact us' → give a reason to act now."
5-7s	— no voiceover — (trending audio)	Text card 3: "3. You reply in 12 hours → speed-to-lead under 5 min."
7-8s	— no voiceover — (trending audio)	Final card: "Structure beats budget." TEXT: "Comment AUDIT"

HOOK: the relatable 'POV: your ads don't convert' overlay over the real-operator desk.

CALL TO ACTION: Comment AUDIT → free funnel teardown.

WHY IT'LL GO VIRAL: the 27.6× ultra-short save/loop format; three fixes in 8 seconds is pure save-bait. (Format-led — mini-result to strengthen.)

Reel 3 — "42 patients from Google"

CONVERT 40s · original VO · Hinglish cut available

TIME	AUDIO — what they HEAR	VISUAL & TEXT — what they SEE & READ
0-2s	"This physio clinic was getting walk-ins and hope. Last month: forty-two patients booked from Google. Here's the exact setup."	A real bookings + Google Ads dashboard fills the screen (a filled calendar = proof). TEXT: "42 patients booked. One Google setup."
2-12s	"Three fixes. One — rank on Google Maps for 'physio near me'. Two — treatment-specific campaigns, not 'physiotherapy'. Three — a landing page with online booking."	Screen-recording of each fix; numbered overlays 1 / 2 / 3.
12-30s	"Someone searches 'back pain physio' at 10pm, sees you in the top three, books instantly. That's not luck — that's the setup."	Phone mock-up: search → map top-3 → booking confirmed. TEXT: "search → top 3 → booked"
30-40s	"Comment PHYSIO and we'll audit your Google presence free — this week only." [Hinglish hook: "Is clinic ko ek mahine mein Google se 42 patients mile — poora setup dikhata hoon."]	Founder talking-head end card. TEXT: "Comment PHYSIO — free audit (this week)"

HOOK: a real bookings dashboard as the first frame — undeniable proof.

CALL TO ACTION: Comment PHYSIO → free Google-presence audit (scarcity: this week only).

WHY IT'LL GO VIRAL: the 8.4x/6,225-comment proof + comment-bait format, on your real clinic result.

Reel 4 — "Your customers ask ChatGPT first"

REACH 30s · trending audio + AI-avatar VO

TIME	AUDIO — what they HEAR	VISUAL & TEXT — what they SEE & READ
0-2s	"Your next customer isn't Googling you anymore — they're asking ChatGPT who to hire. Here's how to be the answer."	Screen-recording: typing "best [service] near me" into ChatGPT; the answer starts generating. TEXT: "They ask AI now. Be the answer."
2-12s	"People used to scroll ten blue links. Now they ask one question and get one recommendation."	Split: an old Google results page vs a single ChatGPT answer.
12-24s	"If AI can't read and trust your business — reviews, a clear service page, consistent details — you're invisible in that answer."	AI-avatar presenter + a checklist graphic (reviews / service page / details).
24-30s	"It's called AEO — Answer Engine Optimization. Comment AI and I'll send the 3-point checklist."	End card. TEXT: "AEO = the new front door" · "Comment AI"

HOOK: a live ChatGPT query for a local service — a behavior the viewer recognizes instantly.

CALL TO ACTION: Comment AI → 3-point AEO checklist.

WHY IT'LL GO VIRAL: rides the AI-curiosity wave on your own proven 8.5x topic, and doubles as a live demo of your AI-av
Frames AI as a new front door — never 'SEO is dead.'

Reel 5 — "3 numbers your reels already tell you"

NURTURE 9s · trending audio (silent format)

TIME	AUDIO — what they HEAR	VISUAL & TEXT — what they SEE & READ
0-1s	— no voiceover — (trending audio)	Over-the-shoulder phone showing an Instagram Insights panel, finger scrolling. TEXT: "3 numbers your reels already tell you"
1-3s	— no voiceover — (trending audio)	Card 1: "1. Plays ÷ your average = which FORMAT won."
3-5s	— no voiceover — (trending audio)	Card 2: "2. Saves > likes = make more of THAT topic."
5-7s	— no voiceover — (trending audio)	Card 3: "3. Comments near zero = a weak hook."
7-9s	— no voiceover — (trending audio)	Final: "Your analytics are a content brief." TEXT: "Comment NUMBERS"

HOOK: "your own data already told you" — a curiosity-gap promise over a familiar Insights screen.

CALL TO ACTION: Comment NUMBERS → 1-page reel scorecard.

WHY IT'LL GO VIRAL: the 27.6× listicle format as a save-bait teach; mirrors your own audit reel. (Format-led — edge is scorecard.)

Reel 6 — "Boosting vs a funnel"

REACH 35s · original voiceover

TIME	AUDIO — what they HEAR	VISUAL & TEXT — what they SEE & READ
0-2s	"Boosting a post and running a funnel are not the same thing — and the lead gap will shock you."	Hard split. LEFT (red): the IG 'Boost' button mid-tap. RIGHT (green): campaign → landing page → leads list. TEXT: "Boost = likes. Funnel = leads."
2-14s	"Boosting buys reach to people who look like your followers. Nice likes, little intent."	Animate: boost → a vague audience blob → a few likes.
14-28s	"A funnel puts your offer in front of someone actively searching, sends them to one page built to convert, and captures the lead."	Animate: search term → landing page → form → a lead row appears.
28-35s	"Same money. One fills your ego, the other fills your calendar. Comment FUNNEL for the 1-page build."	End card. TEXT: "Comment FUNNEL"

HOOK: the split-screen plus a contrarian claim every owner has argued about.

CALL TO ACTION: Comment FUNNEL → the 1-page funnel build.

WHY IT'LL GO VIRAL: the 20.5× scoreboard format applied to a debate your buyers already have in their heads.

Reel 7 — "10 din mein leads" (Hinglish)

NURTURE 40s · original VO (Hinglish, English subtitles)

TIME	AUDIO — what they HEAR	VISUAL & TEXT — what they SEE & READ
0-2s	(Hinglish) "Agar aapko leads nahi mil rahe — problem budget nahi, setup hai. 10 din ka setup dikhata hoon."	Over-the-shoulder of a real leads dashboard → founder talking-head. English subtitle burned in. TEXT: "Leads problem? It's the setup, not budget."
2-14s	(Hinglish) "Ek — high-intent keywords pe jao, 'cheap' nahi, 'best [service] near me'."	Screen-recording of a keyword example. TEXT card: "1. High-intent keywords"
14-28s	(Hinglish) "Do — ek hi conversion landing page, na ki homepage."	Screen-recording of a single conversion page. TEXT card: "2. One conversion page"
28-40s	(Hinglish) "Teen — 5 minute ke andar follow-up. Comment SETUP — framework bhej dunga."	Founder end card. TEXT card: "3. 5-minute follow-up" · "Comment SETUP"

HOOK: Hinglish hook + a real dashboard — speaks directly to diaspora business owners.

CALL TO ACTION: Comment SETUP → the 3-step framework (in their DMs).

WHY IT'LL GO VIRAL: the C3 Hinglish proof format, run in the GTA-diaspora lane no local competitor is using.

Reel 8 — "Contractor: \$1k → \$500K/mo"

CONVERT 40s · original voiceover

TIME	AUDIO — what they HEAR	VISUAL & TEXT — what they SEE & READ
0-2s	"This contractor came to us at a thousand dollars a month. Today: five hundred thousand a month. Same ads budget."	A real revenue dashboard climbing. TEXT: "\$1K/mo → \$500K/mo. Same ad budget."
2-10s	"When we started, leads were random and cheap-looking. We rebuilt three things."	B-roll: a messy 'before' funnel → a clean 'after'.
10-28s	"One — high-intent search campaigns, not spray-and-pray. Two — a conversion landing page per service. Three — speed-to-lead under five minutes."	Screen-recording of each; overlays 1 / 2 / 3.
28-40s	"Month one: 37 qualified leads. Then it compounded. Comment STRUCTURE for the 3-part build."	The job pipeline filling up; end card. TEXT: "Comment STRUCTURE"

HOOK: the \$1k → \$500K/mo jump stated in the first two seconds.

CALL TO ACTION: Comment STRUCTURE → the 3-part build.

WHY IT'LL GO VIRAL: an un-copyable real transformation (your flagship case), framed as a past result — never a guarantee.

Reel 9 — "Running ads for 12 businesses at 2am"

REACH 9s · trending audio (silent format)

TIME	AUDIO — what they HEAR	VISUAL & TEXT — what they SEE & READ
0-1s	— no voiceover — (trending audio)	Over-the-shoulder '2am operator': two monitors, several ad dashboards, coffee, dim light. TEXT: "POV: managing ads for 12 local businesses"
1-3s	— no voiceover — (trending audio)	Card: "11pm — a contractor's leads just spiked."
3-5s	— no voiceover — (trending audio)	Card: "12am — tweak a physio clinic's budget."
5-7s	— no voiceover — (trending audio)	Card: "1am — a realtor's cost-per-lead dropped."
7-9s	— no voiceover — (trending audio)	Final: "Local businesses. Real campaigns. No autopilot." TEXT: "Comment LOCAL"

HOOK: the authentic 'real operator at 2am' visual that powered the 27.6× winner.

CALL TO ACTION: Follow for behind-the-scenes · Comment LOCAL to get yours run this way.

WHY IT'LL GO VIRAL: founder authenticity + the proven over-shoulder visual hook. (Shoot in the founder's real workspace, genericized metrics.)

Reel 10 — "Show up in ChatGPT — 3 steps"

NURTURE 9s · trending audio + AI-avatar

TIME	AUDIO — what they HEAR	VISUAL & TEXT — what they SEE & READ
0-1s	— no voiceover — (trending audio)	Split phone: LEFT a ChatGPT answer recommending a business; RIGHT a Google Business Profile + reviews feeding it. TEXT: "Show up when they ask AI — 3 steps"
1-3s	— no voiceover — (trending audio)	Card 1: "1. Claim + fully fill your Google Business Profile."
3-5s	— no voiceover — (trending audio)	Card 2: "2. Get consistent, recent reviews (AI reads them)."
5-7s	— no voiceover — (trending audio)	Card 3: "3. One clear service page, plain-language answers."
7-9s	— no voiceover — (trending audio)	Final: "SEO got you found on Google. This gets you found in AI." TEXT: "Comment AI"

HOOK: an AI answer next to the profile that feeds it — shows the mechanism in one frame.

CALL TO ACTION: Comment AI → the full AEO checklist.

WHY IT'LL GO VIRAL: the AEO trend packaged as a save-bait listicle; a companion to Reel 4. Keeps Google ('without ditching' never 'SEO is dead.')

8 · Learning loop — keep, kill, double-down

Verdict	Reels	Action
DOUBLE-DOWN	"Halo Effect" (9.1×), "ChatGPT SEO" (8.5×)	broad psychology + AI-trend education is your reach lane — make more
KEEP	"Likes don't equal leads" (2.5×)	solid nurture, keep the DM-keyword CTA
KILL / REWORK	physio & contractor pitch reels (~0.16×)	re-shoot proof-led (Reel 1/3/8 style), never pitch-first

Re-run monthly: scrape your last-30-days, score against this baseline, feed the verdicts into next month's calendar. Recompute the baseline once you have ≥ 30 reels.

_Method: niche-keyword discovery → account-relative outlier scoring → three-layer decode (Higgsfield video_analysis for visual + audio; Gemini video-LLM for overlay text) → format transplant onto owned proof. Research cost: under \$1 of scraping, \$0 in video credits. Caveat: 3 reels decoded (thin, India-skewed); a broader, Canada-inclusive re-run is recommended._
